ABOUT ME

I am an IT graduate specializing in Cybersecurity and Artificial Intelligence, with experience in ERP-based web development, Progressive Web Applications (PWAs), and software programming. My industry placement and previous roles have developed my skills in system configuration, documentation, stakeholder support, and backend integration. My part-time role in customer service has further strengthened my adaptability and problem-solving in fast-paced environments. I am eager to contribute to process improvements and support effective system delivery making a big impact in IT industry. I have **Full-time Work Rights in Australia**.

EDUCATION

- **MASTER OF INFORMATION TECHNOLOGY AND SYSTEMS**
  University of Tasmania, 2023 – 2025 [Graduated June 2025]
  - **Core:** IT administration & professional practices, Web development (PHP, Laravel), Software Engineering (C#, .NET), Research Principles
  - **Cyber Security:** Ethical Hacking, eForensics, CWE, Tools: VMWare, Kali, Metasploit, etc.
  - **Artificial Intelligence:** AI, ML, DL, IoT; Tools: RapidMiner, Jupyter, SQL
  - **Internship:** PWA with Quasar, AdminJS, Vue.js, Typescript.js, Co-pilot for code generation
- **BACHELOR OF SCIENCE IN COMPUTER SCIENCE AND ENGINEERING**
  BRAC University, 2018 – 2022
  - **Key Areas:** Programming (Java, python), OOP, Algorithms, Database, Microprocessor, Networking, Artificial Intelligence (ML, DL, NN, NLP, CV), Software Engineering, Robotics, OS, Compiler Design.

WORK EXPERIENCES

- ***ICT Business Analyst***
  TKMR Marine & Offshore Engineering Pte Ltd (May 2026 - Present) | Singapore (Remote)
  Responsibilities and completed tasks:
  - *Full-stack enhancements (TypeScript, Vue, Prisma) UI, backend & Database updates.* Projects:
